I am absolutely convinced that it rains (and pours torrentially sometimes) on everyone, and our only real "hope" of making sense out of what looks like chaos is to find order in the acts of love and understanding and kindness....that we choose to give to family, to those who hurt us, and to the greater world at large. The miracle happens!!- in that we receive "peace" in those good things we choose to do for others, from the "god" source to which billions of people can attest and have first-hand experience. It behooves us to take compassionate notice of the situations of others, and empathize, and in turn we are blessed.

So when bones ache, knees buckle, hearts break, tears flow-- this is precisely when we can **EXPERIENCE** "god" in the kind acts of others. And during our own repair, restoration, rebirth, rejuvenation, we can **BECOME** "god" for others who are experiencing pain.

Quoting from an e-zine which comes to me once a month (CORELDRAW PRO)(I did the cover for AUG 08-see pg 2) here is a great poem (used with their permission).

**The range of what we think and do
is limited by what we fail to notice
And because we fail to notice
That we fail to notice
There is little we can do
To change
Until we notice
How failing to notice
Shapes our thoughts and deeds**

OOPS..hard drive failure totally wiped my progress out on the stained glass Sample Catalog. Before I jump into that again, I will send a free pattern to whomever says they would be interested in purchasing such a compilation of stained glass images labeled with corresponding product numbers and suppliers. It would be a pdf file (many pages) and probably about 5 bucks. I should be better about backing up my files. I did lose a few patterns, of which one was Celtic knot mirror...those patterns I lost will be supplied as jpgs, as I don't want to re-digitize them. Bummer.... Lesson to be learned.... backup backup backup.

new patterns

I posted a variety of new patterns, and some new african alphabet letters, lots of new Celtic knot patterns made from my Celtic Knot font. It gets to be a little addictive to play with the Celtic knot font, almost like a video game or something like that. The patterns require considerable editing in Corel Draw to make them into stained patterns. Check out this very simple Celtic braid pattern as this month's freebie.
